

DANIEL KNIGHT

FRONT-END SOFTWARE ENGINEER

danielknight263@gmail.com | 07958406507 | <https://www.linkedin.com/in/daniel-knight-developer/>

SUMMARY

Highly motivated Junior Software Developer with a strong foundation in software development principles and programming languages such as JavaScript and PHP. Hands-on experience with full-stack and front-end development. Proficient in problem-solving and collaborating with team members to deliver high-quality code and innovative solutions. Eager to further expand skills and contribute to dynamic projects in a collaborative environment.

PROFESSIONAL EXPERIENCE

We Are Kick - Front-End Developer - Remote

May 2024 - Present

A rewarding role that allowed me to fully embrace the fun and creativity of front-end development. I worked on diverse client projects and played a key role in delivering web solutions.

- Translated **Figma** designs into fully functional, visually appealing websites.
- Independently built the front-end of multiple websites and collaborated on many other sites builds as a team. (Happy to present examples upon request.)
- Conducted daily retainer work, including troubleshooting, implementing feature updates.
- Maintained and optimised codebases to ensure performance, scalability, and adherence to best practices.
- Participated in design and strategy calls with clients on a regular basis.

Tech Stack: **Magento, React, JavaScript, PHP, jQuery, Figma, HTML, SCSS, GitHub**

Reason for leaving: Redundancy

Freelance - Front End Developer - Remote

Jan 2024 - May 2024

- Designed and implemented responsive websites using React and Tailwind CSS, translating Figma prototypes into user-friendly interfaces.
- Developed reusable React components to ensure scalability and consistency across multiple client projects.
- Collaborated closely with clients to align on project goals and deliver visually appealing, high-performing web solutions.

Data 8 - Junior Software Developer - Hybrid Cheshire

Feb 2023 - Jan 2024

- Developed and maintained web applications using HTML, CSS, and JavaScript.
- Assisted in debugging and troubleshooting code issues to ensure software functionality.
- Collaborated with senior developers to identify and implement solutions for software enhancements.
- Developed front-end features using **HTML, CSS, and JavaScript** to enhance user experience on web applications.

- Collaborated with senior developers to write efficient code and implement best practices for software development projects.
- Exposure and experienced gained in Docker, WordPress plugin maintenance, **PHP, and C#**

Student Developer - School of Code -Remote

Apr 2022 - Apr 2023

Acquired expertise in key technologies: **HTML, CSS, JavaScript (ES6), React**. Honed workplace skills: pair programming, agile methodology, test-driven development. Collaboratively developed two full-stack applications.

- Developed a full-stack web application using JavaScript, React, and Node.js. (See portfolio for projects. <https://portfolio-2-0-virid-seven.vercel.app/>)
- Collaborated with a diverse team to create innovative coding solutions.
- Received positive feedback on problem-solving skills and ability to adapt quickly.

Business Owner - Thousand Face

Jan 2017 - Mar 2022

Founder of an art company, specialising in transforming digital images into physical wall art.

- Managed various domains: from accounting to supplier relations.
- Developed interest in tech and eCommerce built a number of simple websites for Thousand Face using a combination of **Shopify , CSS , HTML and Java Script** over a number of years.
- Successfully integrated **APIs**, including those from Thousand Face and Shutterstock.
